PROGRAM: Kathy Stillings will present a program on the Microsoft Visio® software. She will introduce everyone to the software program and the features it contains; provide basic training on using the program. She will include tips and tricks too.

Kathy Stillings is a Senior Quality and Standards Engineer at the Alcan Cable Technology Center.

"Microsoft Office® Visio® 2007 makes it easy for IT and business professionals to visualize, explore, and communicate complex information. Go from complicated text and tables that are hard to understand to Visio diagrams that communicate information at a glance. Instead of static pictures, create data-connected Visio diagrams that display data, are easy to refresh, and dramatically increase your productivity. Use the wide variety of diagrams in Office Visio 2007 to understand, act on, and share information about organizational systems, resources, and processes throughout your enterprise." – description from Microsoft's website.

Note: Upon driving through the gate at Alcan, there are directional arrows showing the flow of traffic through the parking lot. The traffic is directed through the parking lot via the arrows and drivers must pull into a spot (no backing into parking spots) and then walk following the lines painted on the pavement. For the ASQ visitors there should be enough spots in front of the building to accommodate everyone. After pulling through the gate the Technology Center is to the left. Come to a complete stop and then turn left into the parking lot. If the parking spots are all taken in front of the Technology Center, follow the arrows through the parking lot and park accordingly. The best place to park would be the row next to the grass and you simply follow the sidewalk down to the Technology Center.

RESERVATIONS: Please e-mail or call your reservation to Matt Marshall at reservation@asq501.org or 570-326-6591, x192 by noon on Friday November 14th.
